

Los Angeles County
Sheriff's Department

PARKING ENFORCEMENT DETAIL

The primary mission of the parking enforcement program is to ensure that citizens and visitors adhere to the county's parking regulations.

The Parking Enforcement Detail (PED) provides centralized administration of parking violation enforcement and parking citation processing in the unincorporated areas of Los Angeles County. They also provide the administrative review of contested citations, and schedule administrative hearings conducted by civilian hearing officers. The PED unit provides services for other County departments, police agencies, and some Contract Cities. The Administrative Adjudication process provides for the hearing and disposition of all contested cases involving parking violations of the California Vehicle Code, the Los Angeles County Codes, and participating City Municipal Codes.

Parking Enforcement is comprised of 8 headquarters staff members, and 81 Parking Control Officers deployed throughout 16 patrol stations. Through regular patrol, parking control officers issue citations to vehicles that are parked in violation of the law, identify abandoned vehicles, and recover stolen vehicles. They also respond to community complaints regarding parking violations. The Parking Enforcement Detail issues over 225,000 citations annually.

Once parking citations are issued, the Parking Violations Bureau handles collection management. Motorists can pay tickets online by credit card, telephone, U.S. mail, or in-person at any of the payment centers.

To report immediate parking concerns or violations in your community, contact your local Sheriff's Station.
