News Release

It's Hot & It's Summer

The children are out of school for the summer and it's time to be extra cautious when driving through residential and business streets.

The children are back on the streets in the area. What's a driver to do?

It is wise to drive safely at all times, but especially during the summer months when schools are out of session. Everyone should be extra cautious and keep their attention on their driving and surroundings when driving through residential and business areas.

Children and other motorists have a knack for popping out from between cars, blind spots, and driveways.

If you slow down and stay attentive, you may reduce the odds of being involved in a traffic collision resulting in injury or death.

Lomita Sheriff's Station traffic units will be out in force as usual this summer monitoring motorists for unsafe driving practices, such as, inattentiveness, unsafe speed, and cell phone usage while driving.

Share the road with other motorists, pedestrians, bicyclists and avoid being a statistic.

Have a safe summer and drive safely!
