

## **Keep in Touch - Program for Seniors**

The Palmdale Sheriff's Station has implemented a new program to check on the well-being of our senior residents. Many of our seniors are, unfortunately, not in regular contact with family or other loved-ones. They can sometimes feel alone and neglected. Our program provides a friendly voice to keep seniors in contact with the outside world.

For those seniors wishing to sign up for our program, a representative from the Los Angeles County Sheriff's Department will call on a weekly basis to make sure all is well.

If we learn of issues or are unable to contact the participant, we will call the emergency contact(s) provided at the time of registration.

This program is not a medical alert system is not a substitute for other services you might subscribe to such as those who call daily or those who call to remind you to take medication.

Our program is voluntary and completely free.

If you would like to sign up for our program or would like additional information, please call Deputy David Ibanez at (661) 272-2604.
