

AMERICAN MILITARY UNIVERSITY

In partnership with LASD University Presents:

- **Bachelor of Arts**
- **Bachelor of Science**
- **Master of Arts**

American Military University (AMU) is a **fully online** university which is regionally accredited by the Higher Learning Commission, North Central Association of Colleges and Schools. AMU students are active working adults in the military, public safety and national security sectors, and beyond. Founded to provide relevant and affordable education to the military, AMU today serves a variety of students seeking liberal arts and professional studies degrees and we place special program emphasis on programs in Homeland Security, National Security, Intelligence and Emergency Disaster Management.

ONLINE DEGREE PROGRAMS

At AMU, you can progress through your degree path faster. First, courses start monthly, because we know your personal commitments don't always align with a traditional semester schedule. Second, we offer 8 and 16-week sessions for many classes, so you have the option to take more intense, 8-week courses when your schedule allows.

AFFORDABILITY

Despite significant tuition rate hikes commonly found throughout the United States, AMU has a modest tuition level for our undergraduate and graduate courses. AMU has also established a book grant so that undergraduate students do not have to purchase their own books or pay for shipping costs, regardless of where they are located. This represents a huge savings for our students. The grant is available to all AMU undergraduate students throughout their degree program, providing the student maintains a 2.0 grade point average.

AMU offers over 100 degree programs and certificates. The following courses are just a few of the degree programs that maybe of interest to anyone in the public safety profession.
