

SOUTHERN ILLINOIS UNIVERSITY

*In partnership with LASD University
Presents a*

• **Bachelor of Science Degree in Workforce Education & Development**

Southern Illinois University, Carbondale (SIUC) has offered a regionally accredited Bachelor of Science Degree in Southern California for over thirty years. SIU grants 44 semester hours of FREE transfer credit for law enforcement academies, P.O.S.T., other accredited Administration of Justice courses, and for corresponding work experience. SIU is accredited through the North Central Association of Colleges and Schools. Enrollment with SIU is available to any adult who has completed 14 semester hours of college credit for their occupational training and 2.5 years of corresponding work experience.

At our Riverside, CA location we offer a combination of six weekend classroom courses and six 'online' Independent Study courses. More specifically, we offer the twelve courses that are the 'major' or senior level courses in the degree. These courses are designed to be completed in one year, and at the end of the year students have earned 36 semester hours of credit. The six weekend courses are taught on an alternating weekend format – three weekends, per course, in two months. In the same two month timeframe students complete one online course. Class hours are 8 AM – 3 PM Saturday and Sunday.

SIU does not require an Associates Degree to enroll in our 'major' senior level courses.
