

## Los Angeles County Sheriff's Department

### VIDA Intake Night

All participants and parents are brought together at the location of the VIDA program closest to the participant's home. Lecturers, past VIDA graduates and their families, counselors, and deputies address the new VIDA participants and discuss the harsh reality of incarceration. This orientation session is sensitive and often emotional as participants are confronted with the potential consequences of their behavior and are given a preview of how the VIDA program will be conducted.
